SUMMARY

Computer Science student at the University of Engineering and Technology (UET) Mardan with strong interest in Software Development, Web Development, and Mobile Application Development. Experienced in developing academic and personal projects using PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, Flutter, Dart, and Firebase. Skilled in building responsive web applications, database-driven systems, and mobile applications. Passionate about learning new technologies, solving real-world problems, and contributing to innovative software solutions.

PROJECT

Rental Management System

University of Engineering and Technology (UET) Mardan • github.com/farmankhan800/Rental-Management-System • March 2026 - June 2026

- Developed a complete Rental Management System using PHP, MySQL, HTML, CSS, Bootstrap, and JavaScript.
- Implemented secure authentication with password hashing, login, registration, session management, and logout functionality.
- Designed tenant management modules including add, edit, delete, and search operations.
- Built rent bill generation, payment tracking, payment history, and receipt generation features.
- Created an interactive dashboard displaying total tenants, bills, payments, pending bills, and total income.
- Integrated MySQL database using prepared statements for secure and efficient database operations.
- Developed a responsive and user-friendly interface using Bootstrap and SB Admin dashboard components.
- Managed source code using GitHub and documented project setup, screenshots, and features.

Velora Beauty E-Commerce Website

University of Engineering and Technology (UET) Mardan • github.com/farmankhan800/Velora-Beauty • February 2026 - June 2026

- Developed a responsive e-commerce website for beauty and cosmetic products using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Implemented 8+ core features including user registration, login, product search, image zoom, dark mode, product management, authentication, and CRUD operations.
- Designed and integrated a MySQL database for product and user management.
- Improved user experience through responsive design and mobile-friendly layouts.
- Applied frontend and backend development concepts to build a complete full-stack web application.

Flutter Dice Game

University of Engineering and Technology (UET) Mardan • github.com/farmankhan800/Flutter-Dice-Game • January 2026 - June 2026

- Developed a Flutter-based multiplayer Dice Game application using Dart and Shared Preferences.
- Implemented 5+ major features including turn-based gameplay, score tracking, winner determination, leaderboard, and settings management.
- Integrated local storage to save player settings and game statistics.
- Added sound effects, animations, and interactive UI components to improve user engagement.
- Applied object-oriented programming principles and Flutter best practices to create a responsive mobile application.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

University of Engineering and Technology (UET) Mardan • Mardan, Khyber Pakhtunkhwa, Pakistan • 2027

- Currently pursuing Bachelor of Science in Computer Science (BSCS).
- Successfully completed 6th semester.
- Relevant coursework: Object-Oriented Programming, Data Structures, Database Systems, Web Development, Mobile Application Development, Software Engineering, Computer Networks, and Operating Systems.
- Developed projects including Velora Beauty E-Commerce Website and Flutter Dice Game.

Higher Secondary School Certificate (FSc Pre-Engineering)

Fazaia Degree College Risalpur • Risalpur, Khyber Pakhtunkhwa, Pakistan • 2020

- Field of Study: Pre-Engineering

Secondary School Certificate (SSC) - Computer Science

Fazaia Inter College Jinnah Camp, Nur Khan Base • Rawalpindi, Punjab, Pakistan • 2018

- Field of Study: Computer Science

SKILLS

Flutter, Dart, Firebase

PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

Database Management, CRUD Operations, Responsive Web Design

Mobile Application Development, Git, GitHub

Problem Solving, Debugging
